DISTRICT 6-AA ONE-ACT PLAY CONTEST HERE

The citizens of Hamlin will have an opportunity to demonstrate their interest in their city as two election days approach. Saturday is election day for trustees to serve three year terms on the school board and the following Tuesday is election day for city officials.

Admission prices are 25¢ for students and 50¢ for adults.

While the two candidates for the school board are unopposed, the qualifying voters should show their interest and concern for our school affairs by voting.

In the city election Hollis Madden is unopposed for his first full term as mayor and there are six candidates for two vacancies as aldermen.

Floyd Clifton and George Poe are seeking their second terms on the city council and Glen Howard Williams, John Hix, Edward Gardner and Bill D. Davis are also seeking the two places.

Since the voters have a choice of candidates for the two places on the city council there should be a good turnout.

The city has benefited a great deal by the work of the many dedicated citizens who have given so much of their time to serve as aldermen in the past. The only way that this type of people will continue to help Hamlin grow is for the citizens to show their interest and appreciation at the polls.

Voters need to decide which of these six men can best serve Hamlin during the next two years and then support them by casting their ballots for them.

Sometimes it gets pretty confusing as to just what is going on in the world. It might help if someone could come up with a program or something that the average man on the street could tell where things are headed.

It has always been my understanding that the basic difference between the system of economics in this country and in Russia was that in this country free enterprise and man's initiative was what counted and in Russia everybody shares the same.

While we know that in practical application it is not quite the same. But sometimes it gets to the point where it begins to look like two countries have swapped principles.

I read somewhere the other day where in Russia they are paying bonuses for exceeding production goals and then I ran across a story in a trade magazine where a union official in Washington was fussing because the Government Printing Office was paying a bonus for extra production.

The official said that the government couldn't do this because the union would not let private industry do it. He said he felt that it was much better to pay everybody more money than to just pay the few that produced above their quota.

Maybe I got lost in the maze of economics somewhere but I just don't see where this fits into what we think of as our way of life.

The man who produces above his quota is the one who makes it possible for the company or government to pay more money and should be the one who gets it. I find it very hard to believe that many people will produce more than they have to without receiving something in return. When you start spreading it around to all of the people in the department regardless of what they do or do not do, it will soon get to the point where there won't be anything to spread around and everybody will suffer.

This may be a part of an overall plan that is working in the right direction, but like I say I sure wish someone would come up with a program to let everybody know where we are heading and not get us people who are not in the know so confused in the meantime.

WINS IN DISTRICT COMPETITION—Diane Bond, Hamlin High School senior, is pictured with two of her recent pastel paintings which were displayed at the Women's Literary Guest Day Tea Friday afternoon in the Fellowship Hall of the First Baptist Church. The picture on the left, "Dynamic Forces—Youth, Vision, Beauty," won first place at the Mesquite District Hallmark Contest in Haskell March 21. The picture to the right, "Yesterday, Today, Tomorrow," was displayed at the Haskell convention also. Miss Bond's painting is being sponsored by the Literary Club. It has been sent to the Texas Federation of Women's Clubs in Austin for state judging. The state's first place painting will be sent to Kansas City, Mo. for National judging. Other paintings will be carried to Houston to be exhibited during the state convention May 3-6. Theme for the Hallmark contest this year was "Strengthening the Arm of Liberty."

Dear editor:

Progress sometimes shows up

in the least expected places, and

I read an item in a newspaper

last night about an invention

that I've wondered for years

why somebody didn't think of.

The Japanese have invented

plastic lawn grass.

This grass looks so natural

and feels so natural that a lawn

tennis club has tried it out and

reported it works as well as

regular grass.

You can see immediately

what this means to everybody,

except maybe the lawnmower

makers.

All you do is surface your

lawn with a light layer of asphalt,

then lay the small squares

of grass on that, like you'd

lay tile on a kitchen floor.

The results are indistinguishable

from a freshly mowed lawn.

This eliminates such things as

grass, weeds, etc. on your lawn,

watering and fertilizing, and

makes every lawn look just like

the one next door, which is the

purpose, if I understand town

green twelve months out of the

on it, as it does regular lawns,

THE MINISTER SPEAKS—

TIME IS RUNNING OUT

By Rev. Cecil Stowe
pastor of the Church of the Nazarene

The writer of Hebrews said, "Today if ye will hear his voice, harden not your heart." Mortal life is like the day, it has a morning, noon and evening. Some are called from this life in the morning, some at noon and others in the evening. To get the most out of life, and better yet, to put the most into life, one must begin early. Many people are now at the mid-day of their lives and some can see the lengthening shadows of the evening. Time is running out. How much do you have left? Do you have an unfinished business? The church is a specialist in helping people with spiritual problems. People who attend church can find help from the preacher and the congregation.

Time is running out for the world. We are in the sixth dispensation from Adam. It is the Saturday evening of time. Many fear our age for we are evidently close to the end of this dispensation. Like an old man, it is staggering under the tremendous burdens of the age. The next dispensation will be for the people of God, a rest. This legend is a lesson on tak-

ing advantage of your opportunities while you have them.

How much like life this is. In the golden years people seem to think all life is like that, but time runs out and the blasted years come. This is what Paul meant when he said "Today if ye will hear his voice, harden not your heart." Accept him and invest your life in the kingdom of God.

FIVE YEARS AGO:

Project to supply many new needed books current books and children's books for the Hardin Memorial Library is expected to be realized in a campaign being conducted next week under the direction of the Women's Forum sponsor of the local library. Mrs. Tate May is directing the campaign.

There is an old Indian legend of a maiden who was led into a field of corn whose ears were pure gold. The maid was told that she could have all the golden ears that she could carry out of the field in her arms but she could not return after she had passed through the field once, as she walked along she saw blasted ears on each side and she reasoned it was sure to be better farther along. Sure enough it was better farther along but she was sure it would be even better yet and she passed the good corn by and presently she was in blasted As she walked along she saw good corn that she had passed up and was reluctant to take the blasted corn that was so inferior to what she had seen, but she started gathering what she could get and then she was at the end of the row. Then she cried to the master urging him to let her go back through rationalizing that she knew where the best corn was now. But the master said, "No, you can only pass through the field once."

A DAILY INCIDENT!

Hardly a day passes without the newspapers reporting an automobile accident. Lives are lost and bodies maimed due to careless driving on our streets and highways.

Another daily incident which the newspapers often do not report, and to which others are indifferent, is the ruining of lives and character in the wretched, uneducated, and poverty-ridden parts of the great cities in our land. There are those who despair of ever getting out of their situation and so despondency sets in and a lack of desire to strive for worthy goals enters the spirit.

A loving God would have us aware of these whose lives, self-respect and character could be saved—if we were interested enough.

God often impresses the needs of His children upon those who attend His church. It is His will that we should show forth the love of God for mankind by helping all who are suffering. Attend the church of your choice this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

AUSTIN — Diseases transmitted by insects have been or the wane since 1939. That was the first year DDT (an abbreviation of the formula dichloro-diphenyl-trichloroethane) was first used.

The new insecticide was quite to make history. Its effect or lice was particularly striking. It deloused heads in a few hours and they stayed deloused for several weeks.

Dr. J. S. Wiseman, a State Department entomologist, told this story to illustrate the point:

During World War II, a American service officer visited a North African jail to delouse prisoners. The men assembled and the officers used small hand sprayer to puff small amount of DDT powder between the prisoners' skin an clothing.

As expected, there was great deal of chafing and irritation in the face of what seemed to be such a childish procedure—compared with showers shaving of heads, "stoving" of garments, and application of lotions.

When he had finished, the American, who had eaten on his task with great thoroughness, said to the men:

"Tomorrow morning I will come back to check on the action of the powder. If any of you can present me with a live louse I'll reward him with a pack of cigarettes."

Everyone was cheerful at the thought of the cigarettes and all were certain they could easily qualify for them. They spent the whole night eagerly hunting for lice.

Ever since he was a youngster in the depression 30's Don Yarborough has felt that a man should devote his life to doing things for others.

Yarborough ran for lieutenant governor in 1960, and for governor in 1962. Now he is gubernatorial candidate again, in the Democratic primary. He grew up in Houston where he was graduated from Jan Jacinto High School at the age of 17. He then enlisted in the Marine Corps and served in World War II. At the age of 21 he was one of the youngest company commanders in Marine Corps history.

When Don Yarborough came from the war he enrolled in the University of Texas and worked part-time to help his way. He majored in history and government and went on to get his law degree in 1950. While on campus he won the National Intercollegiate Debate Championship.

He re-entered the Marine Corps to serve during the Korean War. On his return to Houston he founded his own law firm and took an active part in numerous civic enterprises.

In 1955 he served as one of the youngest presidents in the history of the Houston Junior Chamber of Commerce. During Yarborough's year as president the organization grew into the largest chapter in the nation.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Texas — Top officials of the state now feel reasonably sure the next fiscal year for Texas governmental operations will dawn with an unfamiliar general revenue surplus on hand.

Texas' hard-pressed general fund has been in almost constant deficit for more than six years. As of March 25 it still was \$36,600,000 in the red.

However, budget-makers are impressed with optimistic U. S. Treasury reports that the income tax cut is going to boom state and local revenues by putting more money in circulation. (Theory: more money spent, more sales taxes collected.)

There will be a surplus. The question is how much," commented one veteran finance observer.

Ideas on "how much" stretch all the way from a relatively modest \$35,000,000 — estimate by the comptroller's office — to upward of \$90,000,000.

While the feeling is general that the Legislature will begin its budget writing next year with prospects of money on hand, the surplus likely will not be big enough to avert a new tax bill.

Public school teachers are campaigning for a \$405 annual pay raise which would cost the state \$68,000,000 for the next biennium. Texas Commission on Higher Education has endorsed a program which totals \$85,000,000 additional spending for the college and university system for 1965-67.

Other state agencies are continuing to grow and few have been known to ask less money.

The surplus should provide a protective cushion. However, governmental finance experts fear that taxpayers won't get by the 1965 legislative session unscratched.

LOAN REGULATIONS PROPOSED — The terms "easy payments," "no red tape," and "repayment in easy installments" are considered misleading advertising by money lenders under regulations proposed by Francis A. Miskell, regulatory loan commissioner.

Miskell served notice of his first four "rules of practice and procedure" for lenders and scheduled a public notice on them for May 8.

Regulations cover books, files and records; advertising; insurance and collection practices.

Under other proposed advertising rules, almost any "comparative" term such as "new reduced rates" or "new type of service" must stand a rigid test of accuracy. Miskell also proposes to ban business solicitation by such devices as "credit cards" and "letters of credit," claiming the borrowers have an established credit standing.

Strong-arm collection practices would be strictly prohibited. In fact, under the rules, lenders could not solicit payment from anyone other than the borrower, members of his immediate family or signers of the note. Employers could be called on to help collect by their own consent.

Miskell gave the loan firms until May 1 to submit their written views on the rules.

The regulatory loan agency set up by the Legislature last year to regulate loans up to \$1,000, plus now is moving into full scale operation.

Department's executive director, Weldon Watson, said the new V-8's are faster and "will help overcome a serious handicap to our warden force."

TRADEMARKE — Re-registration notices are being sent to some 20,000 trademark holders in Texas by Secretary of State Crawford C. Martin.

Martin said that, originally, trademark registrations were perpetual, but in 1961 the Legislature imposed a 10-year limitation. He urged anyone who acquired trademark rights before 1954 to get in touch with his office immediately. All such registrations expire May 3.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Easter out our way was very quiet this year, usually there is a lot of news, with the visiting of friends and relatives, taking advantage of the school holidays, but it seems as if most people stayed at home this year. The traditional nippy weather prevailed, not cold, but still with a nip in the air.

We are happy to report that Miss Maude Drake did have surgery on one eye, last Thursday morning, for the removal

of a cataract, and is reported to be progressing very good. Friday morning, when the dressing was being changed, she could see well enough to tell where three people in room, so it is evident that the operation is going to restore her sight in that eye. If she recovers her sight in that one her plans are undecided for having the other one removed.

Linda Goodwin had a rather bad Easter, as she was sick all day, and had to stay home. She had a virus, resulting with an upset stomach, but was thought to be better Sunday night.

Family Night was held last Wednesday night, at the Oil Mill Guest House in Hamlin, with 32 present. After a devotional period, refreshments of coffee, punch and doughnuts, were served, followed by a fellowship hour spent in playing games of 42. Judging by the noise being made, all seemed to be having a big time. Visitors were Suzanne Wicker and Jeanne Young, who came as guests of Linda Goodwin.

If any one reading this wonders why we go to the oil mill to have our Family Nights, just a little word of explanation, we do not have a kitchen in our church, and we always have to eat, therefore we take advantage of the nice facilities offered at that place, for which we deeply appreciate.

Mr. and Mrs. Flavel Holmes left Thursday morning for Taft, Texas, to visit with their son Mr. and Mrs. Jimmy Holmes and little daughter. They returned Sunday.

Mr. and Mrs. Marvin Johnson, Bruce and Barry, came Thursday night and visited with their parents, the Grays and Johnsons, returning to their home in Amarillo, Saturday, in time to spend Easter at home.

Dorothy Gray came down from Amarillo Saturday, returning Monday, to spend Easter with her parents, the Winson Grays.

Mr. and Mrs. David Higgins, Abilene, ate supper with the George Wainscotts Saturday night.

Mr. and Mrs. Raleigh Bond visited with Mr. and Mrs. Fred Rosenbaum, Saturday night.

Mr. and Mrs. Jack Gray went to Oklahoma, last Tuesday, to attend funeral services for his sister, held Wednesday, who had died in California and was sent there for burial.

Mr. and Mrs. Clois Henry and children, Snyder, took advantage of the school holiday, Friday, and came over and spent the day with Mr. and Mrs. Henry.

Mr. and Mrs. Jimmy Joiner, Jeannie and Ronald, spent Easter Sunday with the Elmer Joiners.

Mr. and Mrs. Joe Ford visited with Mr. W. L. Fletcher, just before coming to church, Sunday night. Mr. Fletcher, a former resident of our community now lives in Hamlin since the death of Mrs. Fletcher, he and a son, L. J. live together. Although Mr. Fletcher is 5 years old, his mental capacities will make a much younger person ashamed of themselves, even if his body is getting frail, but until just a few short years ago his body held up remarkably well, for his advanced years.

McLendon was born on June 8, 1921 in Paris, Texas. His father, Barton R. McLendon, a lawyer, operated a group of motion picture theatres in East Texas, Southern Oklahoma and Louisiana.

After graduating from high school in Atlanta, Texas, McLendon attended Kemper Military School in Booneville, Mo., and was graduated from Yale University with a Bachelor of Arts degree.

During World War II, he was a naval intelligence officer in the combat area of the South Pacific.

In 1943, he married Gay Noe, daughter of former Louisiana Governor James A. Noe. The McLendons have four children: Mrs. Kenneth D. Starnes Jr., Austin resident; and University of Texas student; Gordon B. Jr., student at Cate School, Carpinteria, Calif.; Kristin, Margaret, 13, and Anna Gary, 12, both students at Hockaday School in Dallas.

Mrs. Joe Simpson will review "The Coming Explosion in Latin America" written by Gerald Clark at the Friday afternoon meeting of the Woman's Literary Club.

Mrs. John D. Ferguson will be the hostess in her home on Rotan Road.

Mrs. Bob Craig will be program director. Parliamentary procedure is to be given by Mrs. R. D. Moore.

YOUNG CHILDREN SHOULD BE TAUGHT TO DIAL OPERATOR

COLLEGE STATION, — Small children should know and trust the telephone operator as much as they do the corner policeman, and should turn to the operator in the event of an emergency.

Extension Service specialists at Texas A&M University say that although preschool youngsters can't be expected to memorize long telephone numbers, they can be taught one rule: If an accident happens dial zero, tell the operator what is wrong, and she will help you.

A child should be taught however, that he is to dial zero only in emergencies, say Bobye Rinney, Extension rural civil defense specialist, and Patsy Reynolds, family life education specialist.

One five-year-old's plaintive message to the operator was "My Mommie's asleep and won't wake up — and there's a fire in our house." After a little prodding, the operator learned the boy's name and address and called the fire department. Firemen rushed to the address, found the house on fire and the mother knocked out by sleeping pills. Both survived, thanks to the child's action and the operator's help.

Another youngster whose mother fell through a floor and was trapped, went directly to the telephone and dialed zero. He couldn't remember his daddy's name or where he lived, but he rattled off the name and address of his grandparents. The

The Japanese have invented plastic lawn grass.

This grass looks so natural and feels so natural that a lawn tennis club has tried it out and reported it works as well as regular grass.

You can see immediately what this means to everybody, except maybe the lawnmower makers.

THE MINISTER SPEAKS—

TIME IS RUNNING OUT

By Rev. Cecil Stowe
pastor of the Church of the Nazarene

The writer of Hebrews said, "Today if ye will hear his voice, harden not your heart." Mortal life is like the day, it has a morning, noon and evening. Some are called from this life in the morning, some at noon and others in the evening. To get the most out of life, and better yet, to put the most into life, one must begin early. Many people are now at the mid-day of their lives and some can see the lengthening shadows of the evening. Time is running out. How much do you have left? Do you have an unfinished business? The church is a specialist in helping people with spiritual problems. People who attend church can find help from the preacher and the congregation.

Time is running out for the world. We are in the sixth dispensation from Adam. It is the Saturday evening of time. Many fear our age for we are evidently close to the end of this dispensation. Like an old man, it is staggering under the tremendous burdens of the age. The next dispensation will be for the people of God, a rest. This legend is a lesson on tak-

ing advantage of your opportunities while you have them.

How much like life this is. In the golden years people seem to think all life is like that, but time runs out and the blasted years come. This is what Paul meant when he said "Today if ye will hear his voice, harden not your heart." Accept him and invest your life in the kingdom of God.

YEARS AGO—

FIVE YEARS AGO:
Project to supply many new needed books current books and children's books for the Hardin Memorial Library is expected to be realized in a campaign being conducted next week under the direction of the Women's Forum, sponsor of the local library. Mrs. Tate May is directing the campaign.

Winter small grain crop, which was given a much needed drink 10 days ago after weeks of no moisture, were further benefited by a slow falling ground soaking rain Tuesday afternoon and night. The rainfall varied in amounts from around three-quarters of an inch to nearly an inch and a half in the Hamlin territory.

The employees at the Hamlin plant of the Celotex Corporation have won the 1958 safety award given by the Celotex Corporation, with headquarters in Chicago, Illinois. They have recently established an all-time safety record of 714 days without a loss of time due to an injury.

TEN YEARS AGO:

Numerous Hamlin Scouts, Explorers and Scouters are slated to go to the Swenson Jig on the Brazos River northeast of Lueders this week on an annual camporee for the northern district of the Chisholm Trail Council.

Work of resodding the football field of Pied Piper Stadium has been completed in Southwest Hamlin, according to officials of Hamlin High School.

A DAILY INCIDENT!

Hardly a day passes without the newspapers reporting an automobile accident. Lives are lost and bodies maimed due to careless driving on our streets and highways.

Another daily incident which the newspapers often do not report, and to which others are indifferent, is the ruining of lives and character in the wretched, uneducated, and poverty-ridden parts of the great cities in our land. There are those who despair of ever getting out of their situation and so despondency sets in and a lack of desire to strive for worthy goals enters the spirit.

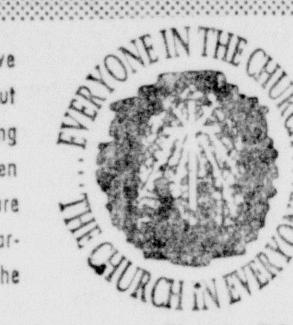

A loving God would have us aware of these whose lives, self-respect and character could be saved—if we were interested enough.

God often impresses the needs of His children upon those who attend His church. It is His will that we should show forth the love of God for mankind by helping all who are suffering. Attend the church of your choice this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

AUSTIN — Diseases transmitted by insects have been on the wane since 1939. That was the first year DDT (an abbreviation of the formula dichloro-diphenyl-trichloroethane) was first used.

The new insecticide was quick to make history. Its effect on lice was particularly striking. It denuded heads in a few hours and they stayed denude for several weeks.

Dr. J. S. Wiseman, a State Department entomologist, tells this story to illustrate the point.

During World War II, a American service officer visited a North African jail to release prisoners. The men assembled and the officer used small hand sprayer to puff small amount of DDT powder between the prisoners' skin and clothing.

As expected, there was great deal of chafing and irritation in the face of what seemed to be such a childish procedure—compared with showers of heads, "stowing" garments, and application of lotions.

When he had finished, the American, who had carried on his task with great thoroughness, said to the men:

"Tomorrow morning I will come back to check on the action of the powder. If any of you can present me with a live louse I'll reward him with a pack of cigarettes."

Everyone was cheerful at the thought of the cigarettes and all were certain they could easily qualify for them. They spent the whole night eagerly hunting for lice.

Next morning, when the officer returned, the men assembled and brought out their cases. There were only 10 lice left. Not a single man had been able to catch more than a single louse.

There was no question about the success of the experiment and the men began listening to their visitor with more respect. He then made a further offer: "Tomorrow," he told them, "I will come back again and there will be \$10 and a whole box of cigarettes for every louse."

All the prisoners crowded round that day's winners, tarts of their technique. The louse was again spent in a frantic louse hunt. A whole box of cigarettes. What luck!

But next morning, not a single prisoner could produce a live louse. The DDT had wiped them out.

Take along with you to your next deer camp a couple of those thick, heavy-wax candles sold by plumbers. Some cold or early morning you'll find they can take the chill off a fairly large tent or trailer in a surprisingly short time.

KNOW YOUR CANDIDATE

Ever since he was a youngster in the depression 30's Don Yarborough has felt that a man should devote his life to doing things for others.

Yarborough ran for Lieutenant Governor in 1960, and for Governor in 1962. Now he is gubernatorial candidate again, in the Democratic primary. He grew up in Houston where he was graduated from an Jacinto High School at the age of 17. He then enlisted in the Marine Corps and served in World War II. At the age of 21 he was one of the youngest company commanders in Marine Corps history.

When Don Yarborough came from the war he enrolled in the University of Texas and worked part-time to help pay his way. He majored in history and government and went on to get his law degree in 1950. While on campus he was on the National Intercollegiate Debate Championship.

He re-entered the Marine Corps to serve during the Korean War. On his return to Houston he founded his own law firm and took an active part in numerous civic enterprises.

In 1955 he served as one of the youngest presidents in the history of the Houston Junior Chamber of Commerce. During Yarborough's year as president the organization grew into the largest chapter in the nation.

A member of Trinity Episcopal Church, Yarborough was on the board of directors of Big Brothers and of Holly Hall (home of the aged). He served as chairman of the economics committee of the Houston Bar Association; and United Fund co-division chairman.

In 1959, Life magazine selected him as one of the 100 outstanding young men and women in the nation.

Railroad Commissioner
Jim C. Langdon is six feet,

The request that he serve on the commission came while Judge Langdon was serving as Chief Justice of the El Paso Court of Civil Appeals.

Langdon served as an Appellate Court presiding Judge (1959-63), as a District Judge for Sutton, Crockett, Pecos, Kimble and Upton Counties (1954-1959), and as a practicing attorney (after World War II).

He was an FBI Agent during a portion of World War II, resigning to enter the Navy.

Langdon is 49 years old, a native Texan, a Methodist, married and has four sons and a daughter.

He has lived in six towns: Stephenville (where he was born), Glen Rose, Cleburne, McCamey, El Paso and now Austin.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Easter out our way was very quiet this year, usually there is a lot of news, with the visiting of friends and relatives, taking advantage of the school holidays, but it seems as if most people stayed at home this year. The traditional nippy weather prevailed, not cold, but still with a nip in the air.

We are happy to report that Miss Maude Drake did have surgery on one eye, last Thursday morning, for the removal

of a cataract, and is reported to be progressing very good. Friday morning, when the dressing was being changed, she could see well enough to tell there where three people in room, so it is evident that the operation is going to restore her sight in that eye. If she recovers her sight in that one her plans are undecided for having the other one removed.

Linda Goodwin had a rather bad Easter, as she was sick all day, and had to stay home. She had a virus, resulting with an upset stomach, but was thought to be better Sunday night.

Family Night was held last Wednesday night, at the Oil Mill Guest House in Hamlin, with 32 present. After a devotional period, refreshments of coffee, punch and doughnuts, were served, followed by a fellowship hour spent in playing games of 42. Judging by the noise being made, all seemed to be having a big time. Visitors were Suzanne Wicker and Jeanie Young, who came as guests of Linda Goodwin.

If any one reading this wonders why we go to the oil mill to have our Family Nights, just a little word of explanation, we do not have a kitchen in our church, and we always have to eat, therefore we take advantage of the nice facilities offered at that place, for which we deeply appreciate.

YOUNG CHILDREN SHOULD BE TAUGHT TO DIAL OPERATOR

COLLEGE STATION, — Small children should know and trust the telephone operator as much as they do the corner policeman, and should turn to the operator in the event of an emergency.

Extension Service specialists at Texas A&M University say that although preschool youngsters can't be expected to memorize long telephone numbers, they can be taught one rule: If an accident happens dial zero, tell the operator what is wrong, and she will help you.

A child should be taught however, that he is to dial zero only in emergencies, say Bobye Rinney, Extension rural civil defense specialist, and Patsy Reynolds, family life education specialist.

One five-year-old's plaintive message to the operator was "My Mommy's asleep and won't wake up — and there's a fire in our house." After a little prodding, the operator learned the boy's name and address and called the fire department. Firemen rushed to the address, found the house on fire and the mother knocked out by sleeping pills. Both survived, thanks to the child's action and the operator's help.

Another youngster whose mother fell through a floor and was trapped, went directly to the telephone and dialed zero. He couldn't remember his daddy's name or where he lived, but he rattled off the name and address of his grandparents. The

Mr. and Mrs. Mac Fullerton and little daughter Kathy of El Paso visited her parents, Mr. and Mrs. Burt Fomby over the week end.

operator called them, got the child's address and had a doctor on the way in minutes.

Although operators are ingenious in tracing calls from small fry, such process is a waste of precious time. Encourage your child to memorize his name, his father's name and address, the specialist recommends.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Easter out our way was very quiet this year, usually there is a lot of news, with the visiting of friends and relatives, taking advantage of the school holidays, but it seems as if most people stayed at home this year. The traditional nippy weather prevailed, not cold, but still with a nip in the air.

We are happy to report that Miss Maude Drake did have surgery on one eye, last Thursday morning, for the removal

of a cataract, and is reported to be progressing very good. Friday morning, when the dressing was being changed, she could see well enough to tell there where three people in room, so it is evident that the operation is going to restore her sight in that eye. If she recovers her sight in that one her plans are undecided for having the other one removed.

Linda Goodwin had a rather

bad Easter, as she was sick all day, and had to stay home. She had a virus, resulting with an upset stomach, but was thought to be better Sunday night.

Family Night was held last Wednesday night, at the Oil Mill Guest House in Hamlin, with 32 present.
